Shivshankar Dhareppa Mali

Aspiring Junior Full Stack Developer | React & Backend API Development | CSE (2027)

Pune, India | +91 9370717823 | shivashankrmali7@gmail.com | LinkedIn | GitHub | LeetCode

Summary

Computer Engineering undergraduate graduating in 2027 with hands-on experience building full-stack web applications, combining **React.js** on the frontend with backend services in **Java, Python, and Node.js/FastAPI**. Comfortable working across the stack with **RESTful APIs, SQL databases, JWT/OAuth authentication**, and Git-based version control, and quick to pick up new frameworks such as ASP.NET Core. Strong foundation in **Data Structures, OOP, and problem solving**, demonstrated by a **Global Rank 2142 in TCS CodeVita**.

Technical Skills

Languages: Java (21), Python (3.12), TypeScript, JavaScript, SQL, C++

Frontend: React 18/19 (components, props, state, hooks), Tailwind CSS, Shadcn UI, HTML5, CSS3, JavaScript (ES6+), Vite

Backend & APIs: Node.js, Express.js, FastAPI, RESTful API design & consumption (fetch/Axios), JWT/OAuth authentication, System Architecture

Databases: PostgreSQL, SQL, Firebase (Firestore, Auth), Supabase

Tools & Version Control: Git, GitHub, Postman, Agile/Scrum, CI/CD (GitHub Actions), Docker, JUnit, PyTest

Education

JSPM's Bhivarabai Sawant Institute of Technology & Research | B.E. Computer Engineering — **Aug 2023 – Present**
CGPA: **9.29/10** (TY), 9.31/10 (SY), 10.0/10 (FY) — *Pune, India*

Jogeshwari Mata Junior College | HSC (Science) – **65.50%** (MHT-CET: **92.90%ile**) — **2022 – 2023**

Janata Vidyalaya Pimpri Sandas | SSC (State Board) – **84.81%** — **2016 – 2021**

Projects

LoanIQ – *Enterprise AI-Powered Loan Origination System* — **React, Node.js, FastAPI, Firebase, OCR, NLP** |

- Engineered a full-stack loan origination platform with automated underwriting workflows and role-based access control.
- Built RESTful APIs connecting the React frontend to backend services, including biometric liveness detection and PAN card OCR data extraction, reducing fraudulent submissions by 45%.
- Streamlined the end-to-end loan approval lifecycle with an NLP credit risk engine, cutting manual verification turnaround time by **60%**.

Mukti Portal – *Digital Trust & Verifiable Identity Infrastructure* — **React, Firebase, Node.js, Express, Flask** |

- Architected a verifiable digital identity platform (VYOMA 2026) generating trust signals from verified work histories.
- Implemented secure cryptographic QR validation workflows and real-time state synchronization via Firebase Firestore.
- Designed resilient RESTful backend APIs with JWT auth and dynamic PDF generation, integrated with a React frontend, bridging the inclusion gap for informal workers.

Hackathons & Competitions

- **TenZorX AI Hackathon:** Designed *LoanIQ*'s full-stack architecture with OCR identity extraction and REST API-driven analytics, cutting appraisal cycle by 50%.
- **VYOMA 2026 Competition:** Built *Mukti Portal* PWA with QR credential verification and real-time worker sync.

Professional Experience

Talent Battle Pvt. Ltd. – *Java & DSA Intern* — **Jul 2025**

- Engineered and benchmarked 20+ core data structure algorithms in Java (Trees, Graphs, DP).
- Built 5+ modular, reusable Java components adhering to OOP and SOLID principles, cutting redundant utility code by 20%.

Oasis Infobyte – *Java Development Intern* — **Aug 2025 – Sep 2025**

- Developed 4 modular Java applications following MVC architecture and SDLC principles, implementing **JUnit** test suites with 80%+ code coverage.

Accomplishments

- **Global Rank 2142 in TCS CodeVita** – International Coding Contest by Tata Consultancy Services (TCS), outperforming 100K+ participants.
- Earned **100 Days LeetCode Consistency Certificate** across core DSA, and qualified competitive rounds in **MaTPO Aptitude Idol 2025**.
