## Summary

**Computer Science student** at **BSIOTR, Wagholi**, with a strong interest in **Cloud Security**, **Data Analyst** and **Full-Stack Development**. Proficient in **Java** and **Python**, and secured **2nd rank** during the first year of engineering, demonstrating strong analytical and learning capabilities. Currently enhancing skills in **UI/UX design**, **web development**, and **professional communication** through project-based learning and team collaboration. Seeking **internship opportunities** to gain hands-on experience and contribute to secure, **user-focused**, and **innovative technology solutions**.

## SKILLS

### Technical Skills

- **Languages:** Python, C++, Java
- **Web Development:** HTML, CSS, JavaScript (Learning), React
- **Tools & Tech:** JavaFX, JDBC, Git, VS Code, MySQL
- **Concepts:** OOP, DSA, DBMS, Cybersecurity Basics, REST APIs

### Soft Skills

- Problem-Solving & Logical Thinking
- Self-Learning & Adaptability
- Team Collaboration
- Communication (Improving)
- Time Management & Attention to Detail

## PROJECTS

### Blood Bank Management System

Java, JavaFX, MySQL

- Designed and developed a desktop application to manage **donors**, **doctors**, **receivers**, and **volunteers**.
- Integrated **JavaFX UI** with **MySQL** backend for real-time data processing and inventory tracking.
- Implemented CRUD operations and a clean, responsive interface.

### Banking System

Java, MySQL

- Developed a secure banking application handling accounts, transactions, and balances.
- Implemented authentication and transaction management for data integrity.
- Integrated Java with MySQL for real-time processing.

### Pharmacy Management System

Python, Django, MySQL

- Built a system managing inventory, prescriptions, sales, and multi-user roles.
- Implemented CRUD operations and automated billing.
- Integrated Django with MySQL for seamless data handling.

## EDUCATION

### JSPM'S Bhivrabai Sawant Institute of Technology and Research [SPPU]

,Wagholi .Bachelors of Computer Engineering

FY ° GPA: 10/10

August 2023 –

Expected 2027 Pune

### HSC, Science Jogeshwari Mata Junior college

12<sup>th</sup> 65.50%

MH-CET 92.90 %ile

Jan 2022 - Feb 20

Pune, India

### SSC, Janata Vidyalay Pimpri sandas

10<sup>th</sup> 80.81 %

Jan 2016 – Jun 2021

Pune , India

## ACCOMPLISHMENTS

---

### Technical Accomplishments

- Created practical projects such as Age & Gender Detection, Expense Tracker, and a Blood Bank Management System using JavaFX and MySQL.
- Completed courses in Java, JavaScript, Ethical Hacking, and Cybersecurity.
- Gained experience in UI/UX design, web development, and basic cloud concepts.

### Social & Personal Development

- Improved communication skills through mentorship and active participation in tech webinars and GDG Pune workshops.
- Took leadership roles in academic projects and volunteered in team even

### Certification
